From Waialeale, per stmr. J. A. Cummins, July 12.—150 bags rice, M. Phillips & Co.

#### WHALE AND WAVE.

DIAMOND HEAD SIGNAL STATION, July 12, 10 p. m.—The weather is clear; wind, fresh, E.

ALONG THE WATER FRONT, July 12.—Complaint is rife along the wharves today as to the delay of the Government regarding the proposed wharves near the Ewa end of the harbor; the schooner Aloha and barkentine Archer, both with general cargoes from San Francisco have been compelled to discharge today on Ewa wharf, which has no shed..... The schooner Labrador was placed on the Marine railway today for a complete overhauling; she has the symmetrical lines of a crack yacht and should, when fully repaired, bring a good price to the authorities, who have ordered her sold..... The steamer Maui is due from Hilo and way ports Thursday next..... The steamer Helene is still idle tied up to Fishmarket wharf..... The ship Aryan finishes that part of her cargo from Ewa plantation, 22,000 bags, at the railway wharf tomorrow, and will then take on Makaweli sugar from the steamer Kauai, while the Aloha will move over to the railway wharf and load Waialeale sugar for W. G. Irwin & Co., by whom she is chartered for a trip to San Francisco..... The big ship Henry Villard will shove her nose into the new slip next the Mail wharf tomorrow, being the first vessel to occupy this berth and will continue to discharge coal from the forward hatch while the Coptic, which is due tomorrow evening, will take her former berth abreast of the Mail dock..... The bark Amy Turner and Otterspool are still at Irigard and Brewer's wharves respectively..... The schooner Nokomis commenced discharging today at Allen & Robinson's.

#### For Laysan Island.

The steamer Waialeale expects to sail for Laysan and adjacent guano islands at 10 o'clock this morning. Captain Mosher, who will have charge of her, is an experienced navigator having been for years on deep sea vessels as an officer. Besides Dr. W. Averdam the chemist and Geo. N. Wilcox one of the directors of the Pacific Guano and Fertilizer Works which has chartered the Waialeale for this expedition, Captain Joseph Spencer a mariner and brother of the late C. N. Spencer, formerly Minister of the Interior, will accompany the party to take charge of the plant at Laysan Island in place of Max Schlemmer who has held that position for some years.

The barkentine Planter which sailed yesterday for Laysan will return in about a month with a full load of guano. There will be enough left there for three or possibly four more trips for the Planter before the deposits are exhausted.

#### Pilots to Move.

The pilots will move their office from the Pacific Mail wharf to their new building at the foot of Richards street today. They will live up stairs in roomy quarters with a good view over the harbor. Above them will tower the lookout and underneath the two whale boats will be housed. The house formerly occupied by them will be turned over to Port Surveyor Stratemeyer for customs quarters.

#### Historic Calabash.

W. F. Love displays in the window of the Pacific Hardware Co. one of the largest and oldest calabashes in the country. It has a written history as far back as Kamehameha II, and probably antedates that time by fifty years. The calabash is of the finest koa. It is considerably worn inside. There is a legend that it was used many years in feeding the shark god, the meat being thrown out from it. The calabash is held at \$200.
